2015 DRUMMOND STREET - MONTRÉAL 25, QUÉBEC - TELEPHONE 845-8144

April 30, 1964

Mr. R.A. Karchevski  
655 Main Street  
Melrose 76, Mass.

Dear Sir:

Thank you for your reception report of April 20th. Your report is accurate as mentioned. You may be interested to know that CFMB broadcasts in 15 languages other than English and French.

Our transmitter is an RCA 10KW type BTA-10U and is located at Laprairie Quebec, about 15 miles south of Montreal. Our antenna pattern is produced from a four tower array.

In reply to your question: I believe our pattern is identical to that of the former station on this frequency CHLP.

Thanks again and best of luck in future DXing.

Yours sincerely

*Wayne Jones*
