

KFJZ RADIO

November 5, 1963

R.A. Karchevski
655 Main Street
Melrose, 76, Mass.

Greetings:

Many thanks for your reception report, which has lain unopened in my desk for several days.

This verifies your reception of KFJZ Radio on 1270 kilocycles October 20th between 11:54 p.m. and 12:01 a.m. October 21st.

So now you have a "Z" for the National Radio Club contest.

Rady Robbins was particularly pleased to discover he could be heard in New England. Do not know anything about any mention of an ERP of 100 kilowatts, but details generally are authentic. Check your tape real closely, however, and I'm sure you'll hear George Erwin instead of Jeff Goldberg. I have heard some funny names on tape, too, that weren't phonetically similar. I recall a tape I sent to the BBC for their station on 1457, on which I had identified a symphony conductor as "Randall Knight". It was something entirely different, but they, in monitoring my tape, told me the name on the tape sounded to them like Randall Knight.

Well, my friend, good luck in your DX'ing and in the contest, and I hope to hear regularly from you through the medium of DX News.
