Mr. R. A. Karchevski  
 188 Marlborough  
 Boston 16,  
 Mass.

Dear Sir;

This is to confirm your reception of Radio Station W.S.N.O. on January 1, 1962

At the time you received us, we had a power output of 1000 watts from our 154 foot vertical antenna. The transmitter is a Gates 1000 Watt transmitter. (We are 250 watts at night).

Thank you for the report, it was correct and accurate in all facts.

Sincerely,

Allan Ray Machell, KLHDB

Chief Engineer
