Dear Mr. Karchevski: Re: Your letter 23 March 1963
Reception Report of 24 February 1962
Follow-up Report of 1 August 1962

It's a shame we've taken so long to verify your reception report and to have caused you so much time and trouble.

This was the project and the duty of "Chuck" Brand.

Negligence on his part was responsible for the tardiness.

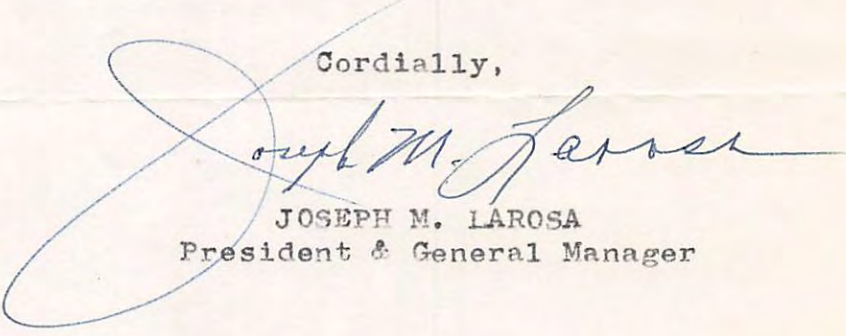

"Chuck" left our employ in November.

I have checked your reports and am indeed pleased to verify your reports and their accuracy in every detail.

Thank you for your patience.

Enclosed is material pertinent to our station and area.

Cordially,

JOSEPH M. LAROSA
