

NATIONAL BROADCASTING COMPANY, INC.

111 SUTTER STREET

SAN FRANCISCO

PACIFIC DIVISION

October 7, 1931

Mr. Stuart B. Leland
82 St John Place
New Canaan, Connecticut.

Dear Mr. Leland:

No doubt you have already heard through the regular correspondence channels concerning our pipe organ about which you inquired on September 26th. This is a Robert Morton organ which has been specially built into our studios for broadcasting purposes, and is probably different than any, even of the same make, which you might find set up as a complete organ.

We are mighty happy to know that at such a great distance you were able to get our program.

Very truly yours,

Manager, Program Department
Pacific Division
