Dear Sir:

This will acknowledge and verify your report of reception of our stations, WBZ-WBZA, by means of excerpts from our program on September 17, 1931.

We are very sorry to note that reception from WBZ is, at times, poor in your locality. We have made several changes in our transmitter and most of our reports have been of improved reception. The power of WBZ has just been increased to 25 KW, and we would appreciate your comments on our reception since this power increase has gone into effect.

Very truly yours,

*J. E. Baudino*
