

Radio Stn WPTF
Raleigh N.C.
October 30, 1933

Dear Sir: - This is to verify the exactness
of your report of reception of WPTF
at and following 2 PM, October 21, 1933
you certainly must have been reaching
after 'em since our power is 1 kW
and our signal at your location must
have been about .01 microvolts.

Thanks for your report
Andrew Maesly
Chief Engineer.
