Dear Sir:

Your report agrees with our station log. We broadcast a report, or rather, an announcement of a golf match at the Schroon Manor Country Club, at the time named. The big league scores you heard later were also broadcast from this station at 6:15 E.S.T..

We are enclosing a verification stamp, and trust that you will be able to furnish us with occasional reports of our transmissions, should you happen to be listening at some other time when we are pushing a signal over that way---We appreciate accurate reports, but receive several from such outlandish places that we disregard them, knowing full well how far our signals have a chance to reach on a congested local channel.

Very truly yours,
Radio W H D L
