Dear Mr. Lindblade:

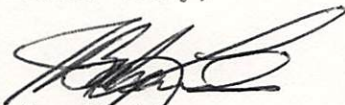

Thank you for your report of reception of the WQTY signal in Omaha. As close as you are to Oklahoma City and Chicago, I can only assume that your directional antenna is very, very good.

I am pleased to verify that the transmission you describe did take place as a part of WQTY's regular testing program. It took place on November fifth between 1:30 and 2:07 AM.

You may be interested to know that WQTY has been sold to me and my wife and that the transfer of ownership took place on June 7, 1979. It is for that reason that I am using temporary letterhead. Since the call letters have been changed to WABT, we have not had a chance to have bumper stickers printed and the coverage map still bears the WQTY call letters.

Thank you for your report, and happy listening!

Yours truly,

Jay Lewis,
President,
