December 29, 1975

Dear Roland,

Thanks for your letter about WENN'S
test for the Newark Radio Club. I have enjoyed
very much hearing from your members
from all over the country.

It seems we have a good signal over
3/4 of this country at night.

Your report is correct and I am happy
that your reception was good. I hope
1976 is a good year for you and yours and
we'll do it again whenever the club
asks ~~you~~^{some} me to. I am glad I can be
of some service to the club. Let me
hear from you again some time

73's

Joseph D. Ingle
Chief Engineer
