Mr. Lindblade:

Thank you for your reception report of KBTA on Saturday morning February 3, 1979 1:16 AM to 1:31 AM CST. Your report is very accurate on tone and ID.

According to my records, your report is first that I have received since March 6, 1976. It was also from a National Radio Club member in Atlanta, Georgia.

The weather here on the morning of your reception was cloudy with a light freezing drizzle.

Sincerely yours,

Vernon White  
Chief Engineer KBTA
