April 21, 1978

Dear Rolland:

We were on the air conducting our monthly frequency test during the period you received our signal. We were running 1000 wats to our transmitter (BC-1F), our Antenna is 444 feet tall and known as a 5/8 wave length vertical.

Edward D. Powers
Edward D. Powers
Chief Engineer

P.S. I used to live in Omaha, I was in the signal corps at old Fort Omaha.
