Mr. Rolland L. Lindblade
1017 N. 90th St. #2
Omaha, Nebraska 68114

Dear Mr. Lindblade:

In reply to your request for verification of a Frequency Measurement by K P G E....

K P G E did conduct a Frequency Test on March 3, 1979, between 12:15 and 12:30 a.m. Station Identification Announcements and 1,000 cycle tone are alternated throughout the period of the test, along with the information at the beginning and the end that K P G E is conducting a frequency test.

Sincerely,

Willa-Don Holmes

Willa-Don Holmes (Mrs.)
