Dear Mr. Lindblade,

This is to confirm that you did, indeed, receive KIBE on Thursday afternoon, 4:55 - 5:06 PST. The selection you heard is indicated in the enclosed reproduction of our playlist. I'm a little amazed that our little 5 kw signal made it all the way to Omaha....the heavy cloud cover over much of the West perhaps was the reason.

We don't have bumper stickers, but a coverage map is included.

Sincerely,

Gerald Klein
Operations Mgr.
