Dear Mr. Lindblade,

Thank you for your reception report of the test broadcast that was conducted for the benefit of the National Radio Club on 12-1-75 at 0030 to 0100 PST.

Your log presentation is correct. Our test program consisted of:

1. Pre-recorded 800cps tone with station I.D.
2. A series of ascending tones, direct from our Mutual Network loop.
3. Instrumental music selections from the album "Street Fair" by the Magic Organ.
4. Two "live" stations I.D.'s, denoting test for NRC.

Thank you again for your interest. May I extend the best of holiday greetings.

Very truly yours.
