Dear Rolland:

This will confirm your reception of KADE on October 22 during our yearly "proof of performance" tests.

KAYQ in Kansas City is a directional station sending most of their signal straight west at night. WOWO is directional east. The Spanish station is the dominant one on 1190 and the one we sign off to protect at night.

Incidentally, I was born and raised in Omaha having attended North High School and worked for a time at WOW and K000.

Thank you for taking your time to write us. And listen for us again some night at about your sunset period.

Sincerely,

A handwritten signature in blue ink that reads "Bob Greenlee". The signature is written in a cursive style with a large initial "B".

Bob Greenlee,
General Manager
