Dear DX Listener:

WAOK is happy to confirm your reception of its signal. We operate with 5 Kilowatts Power, 24 hours daily, with maintenance scheduled for midnight Sundays when we are off the air until 4AM Eastern Time. We make announcements during these periods when the carrier is on the air at the hour and half-hour. We have sketched a map showing our directional pattern which will be of interest to you in knowing whether you are in one of our major lobes, or in a dead zone where we protect co-channel stations.

We are glad that you are interested in radio as a hobby, and that you will be found in the WAOK audience whenever our signal may be heard in your location.

Sincerely,

Ivan M. Miles
Chief Engineer
WAOK Radio Atlanta
