ALAN L. ROYCROFT
Chief Engineer

ALR

Rolly, Thanks for the KORI report, ever
since I rebutted KORI's final about four
years ago it seems to be the gutsiest AM
in Hawaii. I moved it to its
present location about 8 yrs ago
where it shares a tower with KGMB 590,
KIKI 830, KHVH 1040, K200 1210 + KPOI 1380 Kz.
We are very short of tower space in
Honolulu. I am a McMartin dealer & hope to
be in Omaha early April, will call you
735 Alan R
