

Your report of reception was correct.

We are a 1000wt day 250wt nighttime station however at the time you received us we were operateing 1000wts. for frequency check.

sorry we are out of cards andw we do not have any coverage maps. at the present time.

thank you for your report.

25 January 1975

I am pleased to report reception of your station on 22 January 1975 from 1:16 AM to 1:28 AM CST time on 1240 Khz. As proof of reception I offer this log of items heard:

- 1:16 AM Tuned test in progress with tone at approximately 400 Hz.
- 1:17 Test announcement: This is WTAX Springfield, ILL. back to tne.
- 1:26 Test announcement: This is WTAX Springfield, Ill. back to tone.
- 1:27 Test announcement: This is WTAX Springfield, Ill. back to tone.
- 1:28 AM Test announcement: This is WTAX Springfield, Ill. and off.

It was a pleasure to hear your test with a fair signal through severe interference. Your station is my first local channel logging from Ill. Thanks for a fine logging.

Receiver: Hammarlund SP 600-JX, 20 tubes Signal: Fair signal on top at all times.
Antenna: Space Magnet SM-2, directional ferrite core loop Readability: 95%
Interference: Severe from KAKE Wichita, Kan. and others unidentified.
Atmospheric Noise: Little noted Fading:

I would be pleased to hear from you in reply to this report, and to receive a letter of verification, stating the time and date of my reception. For your reply return postage is enclosed. If you have a coverage map that you can spare it would be greatly appreciated. I hope that this report has been of interest to you.

Sincerely,

Rolland L. Lindblade
