

1129 NORTH HICKORY • SOUTH BEND, IN 46624 • PHONE (219) 234-1111

November 24, 1975

Dear Mr. Lindblade:

Thank you for your fine reception report. This letter will verify your reception on 11/15/75 at 7:30am.

WJVA operates daytime at 1580 kHz, with a power of 1,000 watts. We use a Gates BC-1H1 transmitter and a tower .311 wavelength in height.

I hope you will write again if you happen to hear us later than a few minutes past sign-on, as apparently other stations on the channel make us difficult to receive. In any event, thanks again for writing.

Sincerely,

James M. Lies
Chief Engineer
