OMAHA, NEB. 68114

DEAR SIR: CONSIDER THIS AS VERIFICATION OF RECEPTION OF WRAY AM ON NOV. 16, 1975 AT 4:43 - 4:45 PM, CST. SINCE YOU ALREADY KNOW OUR POWER AND FREQUENCY, I'LL JUST FILL YOU IN ON SOME OTHER SMALL ITEMS. THE TRANSMITTER IS A GATES RADIO CO. VANGUARD 111 ALL SOLID STATE EXCEPT THE FINAL R.F. AMPLIFIER WHICH OPERATES CLASS AB1 LINEAR. ONE OUR BIG FACTORS IS A 420 FT. TOWER AND WE ARE ALSO ON A RATHER HIGH MOUND. OUR FM SISTER IS 50KW WITH A GATES FM-20 H3 20 KW TPO BUT OPERATES INTO A 6 BAY ANTENNA WITH ONLY 17.6 KW. TPO AND IS FULL STEREO. YOUR REPORT OF OUR AM SIGN-OFF READS LIKE THE COPY DID WHEN I READ IT //VERBATIM//. YOUR SP 600 IS A FINE RECEIVER. I HAD OCCATION TO DO MAINTENANCE ON A FEW OF THEM IN THE A.F. THANK YOU VERY MUCH FOR YOUR REPORT No. 183-75 IT'S ALWAYS A PLEASURE TO KNOW THAT WE DO GET OUT SOME DX NOW AND THEN.

SINCERELY,

JACK M. MAUCK CHIEF ENGINEER
WRAY AM-FM PRINCETON, IND. 47670
