Dear Rolland:

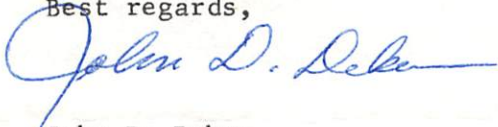

Glad to hear from you. First , I would like to apologize for the delay in this verification letter.

On January 9 , 1975, between 12:30 AM and 12:38 AM, we were conducting our monthly frequency deviation measurement check with Denver, Colorado. The test announcements and 1000 KHZ tone was what we were programming between 12:30 AM and 12:38 AM CST, January 9, 1975.

KSCB transmitts 1000 W NDA Daytime, 500 W DA Nighttime and 500 W NDA pre-sunrise power. We broadcast between 6:00 AM and 12:00 midnight daily.

We appreciate hearing from you and if you're ever in the area, stop in and I'll treat you to a coke.

Best regards,

John D. Deken
Engineer
