Dear Mr. Lindblade:

Thank you for your reception report of May 12th, 1975.
Your times and quotes of station announcements are
correct.

When we can't hear our own signal less than twenty miles
from the transmitter because of the characteristics
of local channels, it's a wonder that you were able to
hear us so well. I'm told that on this frequency, skip
of about 300 miles is rather common, though.

Thanks for writing.

Sincerely,
