Omaha, Nebraska 68114

Dear Rolland,

Thank you for your letter reporting reception of our station December 1, 1975. Please accept our appologies for not verifying your report sooner but we have had our hands full with our new all - news programming. The facts and times reported in your letter are accurate and I complement your ability as a DX'er in being able to hear us in Omaha. We are a directional station with a power of 5000 watts daytime and 1000 watts at night and we put very little of that power out in your direction. We have been an all-news station for about 6 months now and we recently have installed a small computer that actually runs the station for us. It turns the network on and off at the right times and plays all our local commercials when scheduled. Of course, our newsmen read the local news live but the computer runs all the controls for them. It's quite a system. I hope that you have the opportunity to visit Wichita sometime. When you do please stop by and visit with us for a while.

Yours truly,

Steve Schuchman
