WATZ is happy to verify reception of its test program conducted on Monday, November ~~1st~~ from 3:00-3:30AM for the National Radio Club.

Sorry about the long delay in replying, but vacations here interrupted the normal process of mail.

Perhaps at some other time of the year when atmospheric conditions are more favorable, we can repeat the test programming.

You might be interested to note that reception was verified from such far-away points as Toronto, Canada; Omaha, Nebraska; and, St Louis, Missouri to mention but a few.

Enclosed find a WATZ coverage map, which is a little more realistic than the test reception.

Thank you for your interest.

Sincerely,

WATZ AM FM, Radio Alpena

H. Ralph Diethelm, Gen. Mgr.
