Dear Rolland:

QSL QSL QSL QSL QSL QSL QSL QSL QSL QSL QSL

Many thanks for your DX report of January 18, 1977.
It has been checked and this QSL will serve to verify it.

WKNX is owned by Lake Huron Broadcasting and is the largest outstate Michigan station in terms of coverage. WKNX operates at 10,000 watts daytime, with a three tower directional array located in Bridgeport, Michigan. The studios and offices are in Saginaw Township, Saginaw, Michigan. The large amount of land area served by the station is due to the fact that there are only five stations on the frequency, 1210Khz, in the continental United States. As a result, the QRM figure is extremely low.

Tnx and 73's,

WKNX Engineering Dept.
