Mr. Roland L. Lindblade
1017 North 90th Street #2
Omaha, Nebraska 68114

Dear Mr. Lindblade,

This is a conformation of the test which WKLK AM was conducting on the 20th of June, 1976. As you may know that radio stations make modulation and frequency test periodically and indeed you did receive WKLK. WKLK is 1000 watts daytime and 250 watts nighttime but during these testing times the power is raised to full even though it is night time. Our testing company which monitors these test is located in Kansas City, Mo.

Thank you for your letter,

Your truly,

A handwritten signature in blue ink that reads "Kevin J. Abram".
