September 15, 1975

Dear Rolland:

This will confirm your reception of our station on September 10, 1975 from 12:17 AM to 12:33AM, CDT.

We are normally not on the air after midnight but were at this time because of the late ball game. This aided in your reception. We have a figure 8 directional pattern with strong lobe to south and a weaker lobe to the north in your direction.

Thanks for listening.

Very truly yours,

Kenneth Hargis

Kenneth Hargis, Chief Engineer

Regional Channel Service for Springfield and the Ozarks
