Mr. Rolland L. Lindblade
1017 N. 90th ST. #2
Omaha, Nebraska 68114

Mr. Lindblade:

Thank you for such a fine report. Every detail in your report is correct. The test tone and ID was for our monthly frequency measurement which is checked by Commercial Monitoring Service of Lee's Summit, Missouri.

Just a few weeks ago, I had the pleasure of hearing from another NRC member in Lincoln. However, according to your report, our signal was much cleaner this time.

It is a pleasure to correspond with NRC members and I wish you the best of luck. Enclosed is our latest coverage map which I hope you will find interesting.

Sincerely,

WMBH Radio

Robert C. Vestal
Chief Engineer
