Rolland L. Lindblade
1017 N. 90th St. #2
Omaha, Nebraska 68114

Dear Sir

Thank you for your reception report of WDSL on January 5th, 1976
Your report and your interest in our station are always welcome.

WDSL operates daytime only at 1520 khz (non-directional) with
maximum power of 5,000 watts and 1,000 watts during critical hours
(2 hours after sign on and 2 hours before sign off).

Our studio is located at the city limits of Mocksville on Jericho
Church Road. Transmitter is a Collins 21-E remotely operated.

Thanks again for a very nice report, Rolland. I'm sorry we do
not have coverage maps or bumper stickers to send.

Best of luck to you and your fellow club members in your future
activities.

Sincerely

Jack Scott P1-5-10134
Engineer
