Rolland L. Lindblade
1017 N. 90th Street # 2
Omaha, NE 68114

Dear Rolland;

It was such a pleasure to get your reception report. My name is Jerry Kautz and I am acting Chief Engineer until April 28, 1978, after which time I will return to my former job at KFNF (FM) in Oberlin, Kansas, a station I and another man named Don Denver (with K000 until recently perhaps you know him), built physically and of course engineeringly, if there is such a word.

But back to the subject, Yes we did receive your report, and am more than happy to reply to you. KHAS acknowledges your reception of our station on 12 April 78 from 5:28 AM CST to 5:30 AM CST on a frequency of 1230 khz. KHAS Was transmitting with .25 kw at this time.

Personally I like to DX, but as of late havn't had the time. I've been chief engineer for KECK-Lincoln, KBRL, McCook and KFNF-Oberlin, KS., and KHAT-Lincoln. Do you get into FM DX?

Perhaps you could tell me how I could become a member of the National Radio Club. It is something I have been wanting to do for some time, but then again I've not taken the time to do that.

Sometime when I'm in Omaha I'll give you a holler and maybe we can get together for a cup of mud somewhere....as I really enjoy talking radio.

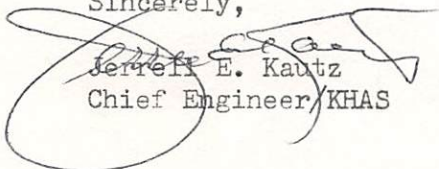

Hope to hear from you again I remember letters from you on file at about every radio station I've ever worked at. I believe you had a report for KXXX in Colby, KBRL in McCook, and KECK in Lincoln and maybe KHAT to name a few.

Have a nice day, Rolland. I

My permanent forwarding address is : Box 425
Culbertson, NE 69024

I'd appreciate hearing from you.

Sincerely,

Jerry E. Kautz
Chief Engineer/KHAS
