GALLUP BROADCASTING COMPANY / 401 E. COAL / PH. 863-4444 / GALLUP, NEW MEXICO

December 2, 1974

Rolland L. Lindblade
1017 N. 90th St. #2
Omaha, Nebraska 68114

Dear Mr. Lindblade,

Thank you for your reception report of November 15, 1974. Your information was compared with the chief engineer's log and the operator on-the-air and KGAK is happy to verify your report. This is our standard transmitter test period. At the time of reception, we were broadcasting with 1000 w.

KGAK is a 5000 w. regional radio station and is the main voice of the Navajo and Zuni Indians. Gallup is the main trade area for both of these Indian tribes. KGAK broadcasts 23 hours of Indian language programs each week.

Again thank you for your reception report and the return postage.

Sincerely,

Larry G. Erwin
Station Representative
