Omaha, NE. 68114

Dear Rolland:

Thank you for your reception report of our test on March 20,
from 12-2 AM. Your report is accurate, when compared to our
records.

We found it interesting to see how far our one kilowatt
signal could be heard at night, since we are a daytimer.
Most of the reports we received were from the eastern states.

Again, thank you! I hope we can run another test soon.

Sincerely yours,
Don Davis
