December 20, 1975

Rolland L. Lindblade

Omaha, Nebraska

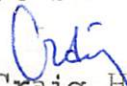

Dear Rolland:

I am happy to verify your report of our test on December 8, 1975 and add Rhode Island to your list. The test was conducted using an RCA BTA-1MX xmtr and a 200 foot NON-D antenna.

Other stations reported on at the time of the test are: KRKO, WBNX, WLCY, WAOK, KUDL and a few more.

Most reports were on the basis of the CW IDs alone, so you can see that your report was not in the minority.
