

WMUU

1260 AM-94.5 FM|STEREO

The **BOB JONES University** Station
GREENVILLE, SOUTH CAROLINA 29614

April 7, 1975

Mr. Rolland L. Lindblade
1017 North 90 Street, Number 2
Omaha, Nebraska 68114

Dear Mr. Lindblade:

You may consider this letter official verification of your reception of our signal between 3:00 a.m. and 3:30 a.m. on March 29. As heard in our transmission, our station engineer was probably conducting some tests on our equipment during your monitoring period.

WMUU-FM, 100,000 watts, operates on a frequency of 94.5 mhz; and WMUU-AM, 5,000 watts, can be located at 1260 khz on the dial. As stated in an earlier transmission that morning, we are the voice of Bob Jones University.

We are enclosing with this letter a copy of our coverage map which you requested for your collection. Also, under separate cover, we are mailing to you a copy of our latest program guide.

If you are ever in our area, please feel free to stop by for a visit. Again, thank you for your interest.

Sincerely,

Jim Ryerson
Station Manager
