Box 66
Milbank, S. Dak. 57252
February 28, 1975

Sir:

Thankyou very much for your letter informing us of your reception of our test broadcast of Monday morning, February 24. KMSD will be a daytime station with a full power of 5KW, a pre-sunrise power of 1KW, and PSA power of 100W. Pending final action by the FCC, we are waiting for our regular broadcast license. (With bated breath) For your further information, from 12 Midnite until 5:32A. M., Monday, February 24, 1975, KMSD was on the air for equipment and transmitter tests. The announcement I recorded and used that morning read..."This is radio station KMSD, MILBANK, S. D. 1510 on your A.M. dial, on the air for equipment and transmitter tests." Following and in between those announcements I played country music albums. I'm pleased to tell you our testing went all right, and I'd like to thank you again for taking the time to write.

Sincerely.

Denny Comfort,
Music Director
