December 22, 1975

This is to confirm reception of KSDN on December 8, 1975  
at 12:30AM CST by Rolland Lindblade, Omaha, Nebraska.

Dear Rolland,

Thank-you for your letter. I'm glad to hear  
we were being received in Omaha. KSDN operates on  
930 Khz and 1000 watts with a Collins 20-V transmitter.  
KSDN is non-directional daytime, directional nighttime  
using a three tower array. We program contemporary  
music. Please let us know if you hear us again.

Thank-You

Norman C. Anderson  
Chief Operator
