

Oct. 28, 1975

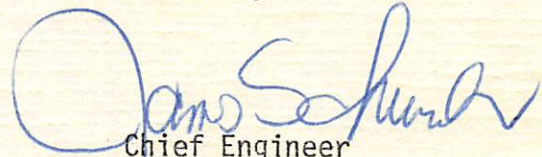

Dear Mr. Lindblade:

Thank you for your reception report of Oct. 20, 1975

We always appreciate these reports, and will file yours with the others we have received. I am sorry that we do not have a station coverage map I can send you.

If you are ever in our area, I would appreciate your stopping in to see our facilities.

Sincerely,

Chief Engineer  
KBUY AM-FM

P.S. We were on the air for frequency check at that time, and the drop you heard was when we went from our 50kw transmitter to our 1kw transmitter to check the frequency of each one.
