Dallas, Texas 75201

Rolland L. Lindblade
1017 N. 90th St., #2
Omaha, Nebraska 68114

Mr. Lindblade:

Many thanks for your very fine letter regarding reception of KSKY at your location on October 24, 1974 @ 6:50PM CDT.

I was very surprised when I saw how letter perfect you had received KSKY. Then it dawned on me that the Omaha station on 660KHz must have signed off giving us a free channel to you. As you can see the 660 frequency does get out. We have a very fine coverage down here on this frequency. Our presunrise power is 500 watts using an old RCA 1K (1000 watt transmitter that was the original power for so many years. Now we change at sunrise to 10 KW.

You may consider this letter as verification of having received KSKY. Again many thanks and best of luck to you.

Best regards,

Morris M. Ming, CE
