

April 21, 1978

Rolland L. Lindblade
1017 N. 90th St. #2
Omaha, Nebraska 68114

Dear Rolland,

This letter will serve as verification of your reception report for April 14, 1978 of WCMS AM.

While your reception report was indeed skimpy it was accurate. WCMS is a 5kw two tower directional daytime station. We use a Gates BC5H transmitter and the am towers are 250' tall 3' above sea level.

Yours truly,

A handwritten signature in black ink, appearing to read 'Earl Tolley', is written over a horizontal line.

Earl Tolley
Chief Engineer
