Sunday Morning December 21st 1975

Dear Mr. Lindblade,

Yes, indeed, you did pick us up Friday afternoon December 12th, mater of fact, I was on the board at the time. I do not have a verification card to send you, so I hope that this will suffice. Your log matches ours exactly, including our sign-off one minute late! Interesting to hear that you have picked us up in the morning. Unless we are testing, we generally are at 500 watts until sunrise most of the year. The other station that might have been interfering with your reception, could be WVAL (they might have changed calls since I have last been home to visit) in Sauk Rapids Minnesota. I believe they were 1/4kw but might have raised power. Their sign-off would be 15 minutes later than ours and I believe KQAD would be a half an hour later than our. Nice to hear from you. Our promotion department is sending along some info also.

Sincerely

Doug Lundberg c/e
