Dear Rolland:

I am pleased to confirm your reception of WEMP on Monday, December 5, 1977 at 12:58AM. Your report was quite accurate.

We had a lot of either cold or snow that morning, I can't remember which, perhaps that had distorted our nighttime directional pattern to send a bit more energy in your direction than normal. In any event, I am pleased to have received your report.

Sincerely,

Albert C. Hajny

Chief Engineer
