MARCH 18, 1976

Dear Sir,

Thank you for your report on the reception of WKAU in your area. We are always glad to hear from new listeners and find out just how far our signal reaches. We are a 1,000 watt, directional, clear channel station; operating from 6:00AM to local sunset. We are three tower directional and have to protect WLIP 1050, Kenosha to the south and WOKL 1050, Eau Claire to the west. Our signal is mainly Northeast, with good coverage to the North and East and Southwest. This is verification that the information you sent was correct.

Thanks again for your report on the reception of WKAU and hope you'll listen whenever you can.

DATE OF REPORT 2/2/76

TIME - 5:50AM - 6:01AM

Sincerely,

James J. Rammer

Chief Engineer
