Dear Mr. Lindblade;

We enjoyed hearing from you, and that you were able to pick up our new FM station. The station has been on the air since last October, and we are very pleased with its coverage area.

We have a 12 bay antenna system, with a 505 foot tower, and are using a 20 kilowatt Collins transmitter. Noting your logging you were listening to KCOG FM.

Again we thank you for the ~~l~~ letter.

Sincerely,

Mike O'Connor  
General Manager
