Mr. Rolland L. Lindblade
1017 N. 90th Street #2
Omaha, NE 68114

Dear Mr. Lindblade:

I think I'll buy myself a pair of rabbit ears. The KHKE transmitter is located just south of Waterloo, ERP is 8 KW, circularly polarized, and our antenna is 400' above average terrain. Coverage is estimated to be out to a 40 mile radius.

Your log of our programming between 12:15 a.m. and 1:06 a.m. on August 23 is quite correct. It may interest you to know that although we have received reception reports from Lincoln for KUNI, the greatest distance we have had for KHKE is your reception.

Sincerely,

Denis Quinn
Broadcast Engineer
