This letter will serve as confirmation of your listening report dated June 30, 1975, in which you correctly summarize our programming from 7:43 to 8:00 AM on June 23, 1975. KUNI operates on 90.9 MHz at 94 KW ERP (100 KW major lobe) with a center of radiation of 1,650 feet. Our transmitter is located at Walker, Iowa, about half way between Waterloo and Cedar Rapids.
