Rolland L. Lindblade  
1017 N. 90th St. #2  
Omaha, Nebraska 68114

Dear Mr. Lindblade,

Thank you for your letter of August 28. It is always a pleasure to hear from distant listeners.

We are an automated station which makes verifying your reception a very simple process. According to our print-out tape on August 26, 1975 the commercials and slogan/ID's were broadcast as listed in your letter. So it appears you were indeed picking up our signal from 11:20 AM to 11:44 AM on the morning of August 26, 1975.

I've enclosed a coverage map as you requested. By the way, if you notice a lack of technical response in this letter it's because our Chief Engineer is away on vacation and I'm answering on his behalf. Thanks again for your letter.

Sincerely,

Robert E. Davis  
Operations Manager
