July 7, 1947

Mr. Norman L. Maguire
185 Williams Street
Glastonbury, Conn.

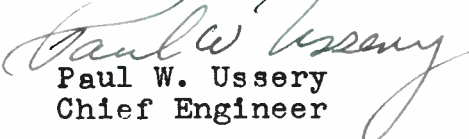

Dear Mr. Maguire:

We were very much pleased to receive your letter of June 25 and wish to express our appreciation for your fine report of our test broadcast.

Here is a little information about our set-up: We have an RCA transmitter, Collins studio console, RCA limiter, Gates modulation monitor, and Raytheon phasing equipment. We are using two Wincharger towers in a directional array.

Thanks for your interest in our station. We should like very much to hear from you again whenever you find it possible to send us a letter.

Sincerely yours,

Paul W. Ussery
Chief Engineer
