

W S R R

STAMFORD, CONNECTICUT

February 9, 1943

Mr. Norman Maguire
600 N. University
Albuquerque, N.M.

Dear Mr. Maguire:

We are indeed pleased to receive your report of reception of our National Radio Club test program. It is especially interesting to hear from you as a former resident of Stamford.

To date your report is the most distant ever received here at W.S.R.R. Your loggings are most accurate and we are glad to verify your reception.

Although we have no definite plans in the near future for a similar test, you might from time to time look for this station Thursday mornings between 12 A.M. and 2 A.M. Our transmitting equipment is tested during this period and frequently we have recorded music to check the modulation.

Yours very truly,

RADIO STATION W.S.R.R.

Stuart Ireland
Assistant Operator
