Albuquerque, New Mexico

Dear Sir:

Your report of hearing W D C F on February 27th, 1956 between 4:32 and 4:45 A.M. EST is very complete and accurate and is hereby verified. Thank you for the report, our only one from New Mexico. Perhaps we can put on another broadcast some day in the future. I would like to contact you by amateur radio some time, also. I am not on the air, right now, my final being in the process of being built in to the same cabinet as my VFO. I have a home-built vfo, built into one-half of a tuning unit of a BC-375. I am putting a final consisting of an 807 in the other half of the tuning unit cabinet. This will serve as vfo and exciter for my big rig when I get it built. Oh, for oceans of money with which to buy ham equipment. I hope to be on the air in the near future with about 150 watts on 80, 40, and 30.

Yours truly and best of 73's
